PAYGOS

One platform for rebates, coupons and field sales, with automated workflows and payments.

Rebate Management

Automate commercial rebates and incentive payments

Agreement Lifecycle
Digitize agreements, automate approvals and track performance in one centralized platform

Rebate Calculation
Automate rebate calculations and validation, with transparent payment tracking and disbursement.

Operational Efficiency
Replace spreadsheets and manual processes with standardized workflows and audit-ready records

Coupons & Loyalty

Simplify consumer offers, claims and payments

Consumer Coupons
Issue, track and validate digital and print coupons using consumer receipt uploads.

Loyalty & Incentives
Automate reward issuance based on promotional rules, budget thresholds and program requirements

Secure Payments
Deliver rewards securely within 24–48 hours through multiple payment methods.

VISA Interac mastercard

Field Sales Automation

Optimize field productivity & retail execution

Visit Capture & Compliance
Capture visits, activities and photos from any device. Validate planograms, displays and stock levels

Dynamic Deployment
Prioritize account visits, optimize routes and track mileage to maximize field productivity.

Promotional Ordering
Manage promotional orders, programs, budgets and returns across sales teams, customers and distributors.

AI Powered Analytics – Turn commercial data into actionable insights across rebates, coupons and field sales.

Live Dashboards
Track KPIs, map territories, analyze performance and maintain audit visibility.

Predictive Intelligence
Forecast trends, identify distribution gaps and anticipate out-of-stock risks.

Unified Data Intelligence
Combine field activity, shelf metrics, display compliance and POS data to measure execution and ROI.

AI In Store Action
Use natural language insights to prioritize inventory, improve execution and identify sales opportunities.
